Circle of Supporters

The Circle of Supporters was founded in May 2021 by committed parents and the site management.

The aim is to generate funds from events and tombolas and to receive donations from third parties, which then directly benefit the day care centre - and thus the children.

These financial resources are used to realise wishes of the children and the day care centre that exceed the available budget.

We need your support!

By becoming a member, being actively involved and contributing new ideas, you can help us to make the children's day at the day care centre even more enjoyable.

Anyone can become a member of the Circle of Supporters:

Parents, grandparents, uncles and aunts, but also companies and institutions. The annual contribution is at least 12.- €.

So, join us, become a member too: simply fill in the membership form on the back, hand it in at the day care centre and support our work for the children with new ideas.

But even without membership, you are welcome to help the Circle of Supporters by making a donation or a one-time payment:
